Ayer's

Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,

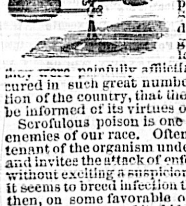

PRACTICAL AND ANALYTICAL CHEMISTS,

LOWELL, MASS.

PRICE $1.00.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.

THE PERFECTION OF PREPARED COCOA.

MARAVILLA COCOA.

SOLE PROPRIETORS,

TAYLOR BROTHERS, LONDON.

THE COCOA (OR CACAO) OF MARAVILLA is the true THEOBROMA LINNÆUS. Cocoa is indigenous to South America, of which Maravilla is a favored portion. TAYLOR BROTHERS having secured the exclusive supply of this unrivalled Cocoa, have, by the skilful application of their soluble principle and elaborate machinery, produced what is so undeniably the perfection of prepared Cocoa, that it has not only secured the preference of homœopaths and cocoa-drinkers generally, but many who had hitherto not found any preparation to suit them, have, after one trial, adopted the Maravilla Cocoa as their constant beverage for breakfast, luncheon, &c.

" AN UNPRECEDENTED SUCCESS."

See following Extract from the Globe of May 14, 1868.

"Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success had been achieved until Messrs Taylor Brothers discovered the extraordinary qualities of "Maravilla" Cocoa. Adapting their perfect system of preparation to this the finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire solubility, a delicate aroma and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others For Homœopaths and invalids we could not recommend a more agreeable or valuable beverage."

Sold in packets only by all Grocers, of whom also may be had Taylor Brothers' Original HOMŒPATHIC COCOA and SOLUBLE CHOCOLATE.

Steam Mills—Brick Lane, London.

LEA & PERRINS'

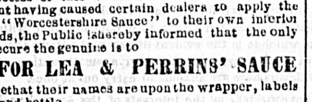

CELEBRATED

Worcestershire Sauce.

DECLARED BY CONNOISSEURS

TO BE

THE ONLY GOOD SAUCE.

CAUTION AGAINST FRAUD.

The success of this most delicious and unrivalled Condiment having caused certain dealers to apply the name of "Worcestershire Sauce" to their own inferior compounds, the Public is hereby informed that the only way to secure the genuine is to

ASK FOR LEA & PERRINS' SAUCE

and to see that their names are upon the wrapper, labels stopper, and bottle.

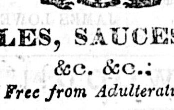

Some of the foreign markets having been supplied with a spurious Worcestershire Sauce, upon the wrapper and labels of which the names of Lea & Perrins have been forged, L. and P. give notice that they have furnished their correspondents with power of attorney to take instant proceedings against Manufacturers and Vendors of such, or any other imitations by which their right may be infringed.

Ask for LEA & PERRINS' Sauce, and see Name Wrapper, Label, Bottle and Stopper.

Wholesale and for Export by the Proprietors, Worcester; Crosse & Blackwell, London, &c. &c.; and by Grocers and Oilmen universally.

AGENTS FOR VICTORIA—Janion, Green & Rhodes.

Medical.

CURES AND COMFORT FOR THE BED-RIDDEN.

—BY—

Holloway's Ointment.

This wonderful Ointment acts like magic in relieving curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structure. It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible spe

Diptheria, Bronchitis, Sore Throats, Coughs and Colds

This class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills, which act so powerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained

Dropsical Swellings.

Beware of this dangerous and stealthy complaint which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for years from Piles and similar complaints when they might use Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailment to anyone

Disorders of the Kidneys, Stone and Gravel

Are immediately relieved and ultimately cured if the Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a thorough cure.

Both the Ointment and Pills should be used in the following cases—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore Throats,
Bunions	Elephantiasis,	Skin Disease
Bite of Moschetos	Fistulas,	Scurvy,
and Sand Flies,	Gout,	Sore Heads,
Coco-bay,	Glandular	Tumours,
Chiego-foot,	ings,	Ulcers,
Chilblains,	Lumbago,	Wounds
Chapped Hands,	Piles,	Yaws,
Corns, (Soft)	Rheumatism,	

Sold at the establishment of PROFESSOR HOLLOWAY 244 Strand, (near Temple Bar,) London; and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices; 1s 1½d, 2s 9d, 4s 6d, 11s, 22s, and 33s each Pot.

, There is a considerable saving by taking the larger sizes.

N.B.—Directions for the guidance of patients in every disorder are affixed to each Box wl5-1yeow

THE GRAND PROMOTERS OF HEALTH.

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance and restore its normal and natural power to every organ, without inconvenience, pain or any other drawback

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful as to astonish every one. Its pre-eminence as a remedy for billious and liver complaints and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive, that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation protected, so that both physical and moral energy are increased

Determination of Blood to the Head.

This is generally occasioned by some irregularity of the stomach and bowels which, if not quickly attended to, frequently terminates fatally. A few doses of these famous Pills never fail to give tone to the stomach regularity to the secretions, and purity to the fluids. Vertigo, dimness of sight and other indications of approaching apoplexy, are entirely dissipated by a course of this admirable medicine

The Female's Best Friend

For all debilitating disorders peculiar to the sex and every contingency perilous to the life of women, youthful or aged, married or single, this mild but speedy remedy is recommended with friendly earnestness. It will correct all functional derangements to which they are subject.

Scrofula and all Skin Diseases.

For all skin diseases, however inveterate, these medicines are a sovereign remedy. While the Pills act upon the blood, which they purify, the ointment passes through the pores of the skin, and cleanses every structure, as water saturates the soil or as salt penetrates meat. The whole physical machinery is thus rendered healthy, regular and vigorous

Coughs, Colds and Asthmas.

No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthma has appeared these Pills may be relied on as a certain and never failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat night and morning.

Indigestion—Billious Headache.

These complaints may sometimes be considered trifling but it should be borne in mind that by inattention and neglect, they often end most seriously. Give early thought to a deranged stomach take Holloway's Pills, rub his celebrated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvement, though it may be gradual will be thorough and lasting.

Holloway's Pills are the best remedy known in the world for the following diseases:

Acne	Female Irregularities	Scrofula King's Evil
Astama	Fevers of all kinds	Sore Throats
Billious Complaints	Fits	Stone and Gravel
Blotches on the Skin	Gout	Secondary Symptoms
Bowel Complaints	Headache	Tic-Douloureux
Colic	Indigestion	Tumours
Constipation the Bowels	Inflammation	Ulcers
Consumption	Jaundice	Venereal Affections
Debility	Liver Complaints	Worms of all kinds
Dropsy	Lumbago	Weakness, from whatever cause
Dysentery	Piles	
Erysipelas	Rheumatism	
	Retention of Urine	

&c....................&c....................&c

THE BRITISH COLONIST.

Sunday Morning, Nov. 14, 1869.

Colonial Steamer.

In a former article we devoted attention to the importance of direct steam navigation: We would shortly discuss the ways and means. Our imports embrace English manufactures, with wines, spirits and other products from Europe. American manufactures and produce form also an important item in our inward freights; to these may also be added sugar and molasses from the Sandwich Islands, rice and tea from China. Our exports consist of timber, coal, oil, fish and treasure. Now, could we not command such a fair proportion of this as would pay a colonial steamer? The government would lead off with a subsidy for conveyance of mails. The Banks would no doubt cheerfully co-operate by shipping their treasure. The Hudson Bay Co. would put the extensive inward and outward bound freights which they control, in its way. Possibly the day may be near at hand when the valuable collections of furs of that Company will cease to be forwarded by the circuitous and perilous Cape Horn route. These would then become another permanent export to be relied on. As it would be all important to give the steamers full freights from this, every voyage, an arrangement might be made with the Coal Company and the lumber mills to ship when necessary quantities of their coal and timber at such reduced rate of freight as would save them from positive loss. With low freights and regular communication our exports of fish, cranberries, oil and other articles would increase. To obtain a fair proportion of the inward freights from San Francisco, direct efforts must be made, for we must expect competition not only with the American steamers but with the fleet of sailing vessels which come in ballast to the lumber mills of Puget Sound and Burrard Inlet. Our merchants must co-operate with the importations which they control. The difference in point of time in favor of a direct steamer is so great that, with a moderate charge for freights and regularity in sailing, little difficulty would be experienced in securing good upward cargoes. Much depends, however, upon the ability and zeal of the Agent in San Francisco. One with a thorough interest in the colony would work the matter not only in the interest of the steamer but for the benefit of the colony. Those who have been in San Francisco and Portland are surprised that any immigrants ever get through those places to this. What with their labor exchanges and other direct agencies for securing and scattering through their States the multitudes at present rushing westward, the advantages of British Columbia are ignored and its chance of population greatly reduced. Let a good Agent be appointed, his office secured in some prominent thoroughfare, furnished with maps of British Columbia, and short circulars containing full information in regard to our farming settlements and mining resources. If the Government, in addition to a liberal subsidy, would thus co-operate in furnishing and distributing through the agent, reliable information regarding the colony, we could not fail to secure a fair per centage of the floating population on the coast. As it is, the colony is out of sight, and out of mind. The subject, then, deserves to be taken up, and fairly considered by our merchants, our landed proprietors and citizens generally, with a view to the establishment and gradual building up of an ocean steam interest. We believe that it will conduce in a large measure, to the speedy development and prosperity of the colony. At present real estate has only a nominal value; our farming lands are being taken up but slowly, and our extensive coal deposits only partially worked. We have latent wealth; but we must do more to induce foreign capitalists to come to our aid and bring population. And what will decide immigrants on arriving at San Francisco, to look at this colony before determining on their new home, but cheap, regular, and direct communication? Ocean steam is rapidly becoming an important interest in all parts of the world. It is destined to attain a magnitude on the western shores of America, as vast as the Pacific ocean itself. Vancouver Island, from her favoured geographical position, has nothing to fear in entering the lists, and competing successfully for a share of the growing commerce. Cannot our Chambers of Commerce solve the problem? They are competent to form an estimate of the probable cost, and the expense of running a steamer. They can measure the probable return on the capital invested. Let a beginning be made, and it may confidently be predicted that this interest will steadily grow, and that at no distant day, the shipping of British Columbia will become known in every port from Behring Straits to Australia.

A Voice from the North.

Alaska cries for liberty. A new people, a thousand miles to the North of us, pray Congress to give them a Territorial Government. Nor will they pray in vain. Let us look into this matter a little. There is something in this cry from the North calculated to make British Columbians think. Alaska is a territory, as most of our readers are aware, but the other day acquired by purchase, snatched, as it were, from the paralyzing hug of the Russian bear. Just two years from the time the American Government took possession, on the second anniversary of the day upon which the Russian flag gave place to the Stars and Stripes of the Great Republic the people of the new territory ask to be put in possession of the powers of self-government. Their petition is prefaced by the accustomed "Whereas the enjoyment of civil rights, and exercise of self-government, are the unalienable privileges of American citizens, &c." It may be interesting, it ought to be edifying, to look at this Northern people for a moment. Who and what are they? The white population of Alaska is estimated at 2000 Americans and Russians, probably about an equal number of each. Here, then, we have a two year old colony, counting within its borders only one thousand subjects accustomed to liberal institutions, asking for Territorial organization, asking, too, with the probability of receiving. The reasons urged in support of their prayer are interesting and ought to be instructive. The affairs of the Territory, they assert, could be much more efficiently administered for fifty thousand dollars than they are now for ten times fifty. Commerce, industries, settlement, the mineral, marine, and forest interests all would be stimulated and expanded under the magic touch of liberal institutions. Can this be so? The history of every State and Territory now forming the largest, most prosperous and powerful republic the world ever saw returns a most emphatic YES! This is at least one secret of the unparalleled success of that remarkable people. When 'American citizens' penetrate the regions beyond they ever carry with them those 'civil rights' they have justly learned to prize. With them 'self-government' is a convenient, simple, portable machine. It is set down in the unreclaimed wilds of new and distant territory, and there it is worked, and worked successfully by one thousand citizens, and thus one star after another is added to that galaxy which forms the American Union. What a commentary is all this upon the history and present position of British Columbia. Five times as old as Alaska, and with ten times the English speaking population, nearer to the centres of civilization, and nearer the seat of supreme power, we are still without the rights of self-government, rights which are the 'unalienable privileges' of Britons as well as Americans. 'Why is this thus?' Britons were not wont to be so feckless, so submissive to oppression and wrong. Are ten thousand British Columbians less fit to enjoy and work out responsible government than one thousand Americans? Were not both rocked in the same cradle of liberty? Were not both dandled upon the same knee—nurtured at the same breast? Do not both speak the same tongue, worship the same God? Did not both imbibe the same aspirations and love of liberty with the milk of a common mother? Why, then, should not the ten thousand of British Columbia be politically free, equally with the one thousand of Alaska? We must be free! A people surrounded by liberal institutions cannot be kept in bondage. If these fetters be not untied speedily, the people will snap them assunder; and, in doing this another bond may possibly be broken! Let the government be wise; and let it be wise in time!

Canadian Mail Summary.

Our Canadian exchanges are to the 29th ult. The Ministerial changes were for the most part complete. Mr. Dunkin, Treasurer of the Province of Quebec, had accepted the portfolio of Secretary of State for the Dominion, Mr Langevin, the former Secretary, taking the appointment of Commissioner of Public Works, formerly held by Mr McDougall. Mr. Robertson, of Sherbrooke, succeeds Mr Dunkin in the Treasurership of Quebec. Mr Rankin had resigned his seat in North Renfrew to give place to the new Minister of Finance. Sir Francis has issued his address to the electors. In it he reminds them of a former occasion when, on the recommendation of the late Mr Cayley, North Renfrew gave him a seat, and he expresses the hope that his having accepted honorable employment under the Imperial Government in other portions of Her Majesty's Dominions shall not be held to have forfeited the confidence of his countrymen. He will be opposed by Mr Findlay, Fembrooke; but his prospects are said to be excellent. A large section of the Reform press, led on by the Toronto *Globe*, is very severe upon Sir Francis; but, now he has been fairly installed, it is hoped there will be a disposition to judge him only by his fruits in the new position. In Newfoundland the canvass for the impending general election appears to have set in with great vigor on both sides, the war-cry being, of course, Confederation on the one hand and no Confederation on the other. Mr McKay is contesting the district of Twillingate and Fogo against Mr Whiteway, the Confederation candidate. Mr E D Shea was spoken of as the Confederate candidate for Terryland, and Mr Robert Kent for St John's, east, in the same interest. It is thought that McKay will offer a strong opposition. He is Mr Bennett's partner in the Tilt Cove Mine, and a powerful and plucky man. Each party has a steamer, the Confederate and the anti-Confederate steamer, plying on the coast. The Confederation press charges Bennett with a strong private interest in the issue. It appears that while member of the Executive Council in the days of irresponsible government, he obtained an unconditional grant of more than a million acres of the best mineral land on the Island. It is intimated that the legality of the grant is more than doubtful, and that Bennett dreads the overhauling the Canadian Government would be more than likely to give such a claim. In Nova Scotia the Repeal party is considered dead, even Mr Annand, the proprietor of the Repeal organ (Halifax *Chronicle*) having abandoned the hopeless cause. Mr Annand was one of its most able and hopeful supporters, and a leading member of the local Government. We shall probably hear no more of Nova Scotia Repeal, save as a thing of the past. Joseph Howe left the sinking ship in time to save his reputation and secure office. There has been great destruction of property on the gulf coast. Very many fishing boats were destroyed by a sudden and terrific gale, and many families in the Gaspe Basin have been reduced to want. This year's catch of fish has been poor, thus adding to the destitution of that region. The following General Order was published:—'The Governor-General takes the earliest opportunity of conveying his thanks, and by special desire, those of H. R. H. Prince Arthur, to the officers, non-commissioned officers and men, of the Volunteer Militia of the Dominion of Canada, who have recently turned out within Nova Scotia, New Brunswick and Ontario, with such promptitude and good spirit to welcome Prince Arthur as well as His Excellency. The soldier-like appearance at all places was most creditable." The omission of Quebec in the special naming of the Provinces has elicited remark, and the Quebec press asks the reason.

To the Electors of District No. 2,

GENTLEMEN:—At the urgent request of a numerous and influential body of Electors I have been induced to ask your suffrages for the seat rendered vacant by the death of your late greatly esteemed representative.

In the present critical position of affairs, I consider it absolutely necessary for the future welfare of our Colony that we should not rush into Confederation with Canada, which it is the evident desire of the Home Government to force upon us, and which a small section of the politicians here are anxious to carry out at once.

I do not consider that the interests of the Agricultural community are likely to be improved by Confederation, unless a system of immigration to this Colony is made a condition. The longer Confederation is postponed the greater hope there is for us to obtain all the advantages which may be derived therefrom; and you will then have the opportunity of carefully considering your position before you finally commit yourselves to the irrevocable step; nor would I, under any circumstances, have Confederation without an Overland Railway, and regular Mail communication by ocean steamers.

Should you elect me all my energies shall be devoted to protect your interests.

There are several other topics which I shall be glad to touch upon, but I reserve them until I have the opportunity of meeting you personally. The question of Roads is, however, one I cannot overlook, as I consider that your welfare hinges on this subject, for without good and available means of communication it will be impossible for you to compete with our neighbors.

THE BRITISH COLONIST.

Sunday Morning, Nov. 14, 1869.

BIRTH.

At Coldspring House, Cariboo, Oct. 28th., the wife of Mr. John Boyd, (Boyd & Heath) of a son.

The Harvest of the Gales—Wreck of the Bark Maria J. Smith—Another Wreck Reported.

The schooner Surprise, Capt Francis, arrived from the West Coast of the Island yesterday morning having on board Capt David Smith of the American bark Maria J. Smith, his wife and children and officers and crew. The bark was wrecked on Tuesday morning last near Barclay Sound. All hands escaped to the shore and the second officer was left in charge of the wreck. Another bark was seen on the rocks near one of the islands, the sea breaking over her. She is supposed to have been the Buena Vista and is reported by the Indians to have got off in a water-logged condition. The shipwrecked people were succored by Capt. Francis of the Surprise, who has brought three distressed crews to this place. Capt. Smith has favored us with the following report of the disaster. It is hoped the bark may yet be saved:

Sailed from Port Townsend Saturday evening, with a light easterly wind. Sunday day off Race Rocks, calm and light easterly breezes. Passed Cape Flattery light 2 p.m. Monday morning with a fine whole top breeze; at 3 o'clock took in top-gallant sails, at 4 o'clock double reefed top-sails and furled main-sail, at 6 o'clock furled fore-sail, blowing a heavy gale with a high sea and about SSE, at 8 o'clock furled top-sail. Deckload began to work loose and carried away mainsail and sprung bitts round mainmast. Sounded and found five feet water in weather pump. Found we must be in all sail or water-log, furled main-sail and hove to under mizen stay-sail, went to work getting over deckload and pumping; at 10 o'clock sucked the pumps and got clear of the heavy spars on deck. Wind began to moderate, set the top-sails and while doing so it cleared up a little and discovered the land close under our lee; all sail was made as quickly as possible, but the wind moderated and changed so often that we could not get away from the land, which consisted of a chain of small islands and rocks, as far as we could see, with a terrific surf breaking masthead high. Got the best boat out, and when nearly in the surf, got hands into her safely and left the ship to her fate. As long as we could see her she seemed to beat along the edge of the surf in towards the mainland. Not knowing on what part of the coast we were, we laid by our boat waiting for daylight, which came at last and revealed to our sight one of the most terrific views imaginable: the sea was running mountains high and breaking over the reefs with irresistible fury. On one of the islands we saw a bark lying with her main top-sail set and the sea breaking over her. Thinking it to be our vessel, and knowing we could not approach her, we pulled along to the eastward and shortly after discovered our own bark's sails in among the trees and rocks about four miles away. With much difficulty and no little damage we found our way among the rocks and breakers, and about 10 a. m. reached the ship which we found resting on a ledge of rocks on a little strand between a small island and the mainland. Not deeming it best to take the women and children on board, we found a small sail boat and landed them and went on board to get some provisions and sails to make tents for shelter. We found the ship full of water, skylight window washed out, big windows stove in and many marks of rough usage. While passing through the four miles of rough water she had managed to get into her present position. She was pounding heavily on the rocks, but we succeeded in getting some provisions and sails and took them on shore, but got them all wet by the filling of the boat in the surf. At this time we were visited by a white man, Mr Francis, a trader, and found we were ashore at the extreme entrance of Barcley Sound, Vancouver Island. He informed us he had a house near by and invited us all to take provisions and make ourselves as comfortable as possible. We accepted his invitation with many thanks and were heartily glad to find a warm fire and lunch awaiting us. On Tuesday, Wednesday and Thursday we employed our time in saving what we could from the wreck and trying to get her boat again, but the Indians were very numerous and troublesome, stealing everything that came to hand: at low tide they were like a parcel of rats, creeping through the ship in every direction and carrying off everything within their reach. On Friday there was a very high tide and the wreck floated off which we succeeded in getting to anchor in a small harbor where Mr Francis' trading post is, since which time the Indians have ceased to steal, and by threats of sending a man-of-war to punish them have got some of the stolen goods back again. For what few stores, &c, we have saved from the Indians we are indebted almost entirely to the exertion of Mr Francis; and for his disinterested assistance and cheerful hospitality myself and family, with my officers and crew, do hereby extend to him our hearty thanks and best wishes. Had we not fallen in with with him I believe the Indians would have robbed us of everything and the chances are that some of us would have lost our lives, for we could not have seen our food and clothing all taken from us without an attempt for my rights and that of my wife and children.

The schooner Petaluma put into Esquimalt yesterday afternoon in distress. She had been out 25 days from San Francisco on her way to Kodiac, had been pelted and buffeted by the great gales and received considerable damage.

A report that a brigantine had been wrecked in the Straits and all hands lost, was in circulation last evening.

THE GIFT ENTERTAINMENT.—At Professor Morey's loves last evening, Miss Archer of San Francisco, drew the beautiful silver easet of six pieces. The young lady held 96, the nearest to the prize-number [100] which was not out. Professor Morey, amid much applause, announced that on Monday evening the leading gift would be a *moire antique* dress-pattern, which may be seen in the London House window. The Professor, to insure satisfaction, was assisted by Mr. Courtney in the distribution of the prizes.

ARRIVAL.—The ship Marmion, Capt Boyd, ten days from San Francisco, arrived in Esquimalt harbour yesterday morning. Capt Boyd reports severe gales the entire passage. The Marmion comes consigned to Sproat & Co. of this city, and is after a cargo of lumber.

FROM NEW WESTMINSTER.—The steamer Enterprise, Capt Swanson, returned from New Westminster last evening, bringing a local mail and express and about 20 passengers. Among the passengers were Chief Justice Begbie, Mrs Irving, Mr Chas. Good, Mr Wm. Fisher, Mr H Nelson, and Mr D C Maunsell. There is very little news. The Municipal Council met on Wednesday. Letters of resignation from Councillors Clute and Holbrook were read and acted upon. Mr Wm Fisher reported the result of his effort in England anent the question of removal of the Capital, after which a vote of thanks was tendered to that gentleman. A party started out yesterday morning to the locality, in the vicinity of Pitt river, where the gold was obtained. The late gale extended to the Mainland, but did little damage; a few sheds and Indian houses were blown down. The bark Ruby was ready for sea, and was expected to sail yesterday. The Matilda was undergoing repairs. The farmers on the Sumas and Chilliwhack are making arrangements for cultivating wheat more largely.

THE REDUCED TELEGRAPH RATE.—The Western Union Telegraph Company, (as we announced a few days ago) have materially reduced the rates for private dispatches. Mr Howe, local agent of the company in this city has kindly handed us the following comparative schedule of the old and new rates, which show a very important reduction. The liberality of the Western Union will, we hope, be met—like the Penny Post—with increased business and receipts:

	10 WORDS OLD RATE.	10 WORDS NEW RATE.
Portland,	$2,00	$1,00
Sacramento	3,75	2,25
Marysville	3,50	2,50
San Francisco	4,00	2,25
Los Angelos	5,00	3,50
White Pine	4,50	3,25
Virginia City	4,60	2,50
San Jose	4,00	2,50

THE ACTIVE sails at 8 o'clock this morning for San Francisco. On the passenger list we observe the names of Mrs. Pidwell, Mr. C. S. Jones, Bank of British Columbia, Mr. Cochrane, Assistant Registrar at Barkerville, Capt. Lewis, of the H. B Co's steamer Otter, Mr Clapperton, of Clinton. Messrs. Jones, Lewis, Cochrane and Clapperton have received six months' leave of absence from their positions. The Wilson Troupe also go south in the Active to-day. The passengers will number eighty.

"CLEANSING THE BLOOD," upon which charlatans have harped so much, is not a mere catch-word and delusion. The microscope shows that some diseases exist like parasitic growths upon the globules of the blood, and it is further known that some subtile substances destroy or expel them. These substances have been combined to make Ayer's Sarsaparilla, which does effectually expel the disorders that breed and rankle in the blood to rot out as it were the machinery of life. [Mercer (Pa.) *Whig.*] *

THE RIFLE MATCH.—The deciding match between the Charybdis and Victoria Tens was won by the latter, who won by 59 points. The weather was rainy, and the wind came in frequent gusts across the exposed range. The scores were not so high in consequence. The highest scores on the Volunteer side was 47 points, by Band Sergeant Soar and Private Wolleuden; Adjutant Vinter, 46. The Charybdis' highest scores were 46, by J Algrove; Lieut. Sergeant, R. N., 44.

SUPREME COURT NOTICES.—In Saturday's *Gazette* it was announced that a court of *nisi prius* for the trial of civil causes will be held before His Honor Joseph Needham, on Wednesday the 24th November, and on Wednesday the 8th December, commencing at 11 o'clock each day; also that a Court of Assizs and General Goal Delivery will be held before the same, on Tuesday the 30th November, commencing at 11 o'clock.

GOVERNMENT has been asked to send a gunboat to Barclay Sound to assist the shipwrecked vessels. The request ought to be complied with.

THE Sooke trail has been entirely cleared of fallen timber by Mr. Nicholson, road contractor.

A Disirict Voter on the Impending Election.

EDITOR BRITISH COLONIST:—If it be true that Mr. DeCosmos is trying to catch voters in the district by promises of a continuation of the British Columbia Tariff under the Dominion, or any other Protective Tariff, except the Dominion Tariff, he must be aware that he is speaking directly contrary to his previously published terms of Confederation.

You will find that in April, 1868, he proposed in the Legislative Council, as one of his terms, that the Revenue Laws of the Dominion should extend to this Colony, and then he amused himself by calculating the loss that would accrue to Canada by the substitution of the Canadian Tariff for that of British Columbia, and declared that the people would be benefited by such a substitution, thus proving that he has hitherto looked forward to the British Columbia Tariff being abolished. If Mr. DeCosmos had carried his point in the Council, in 1868, where would the farmers be now? They would either be ruined or competing under great difficulties with our American neighbors.

Again, Mr. DeCosmos has always advocated a Reciprocity Treaty. This implies an abandonment of all protective duties on agricultural produce. Does he now mean to tell the farmers that he advocates a continuation of the present duty, and keeps back the fact that a Reciprocity Treaty will kill the duty? By so doing he deludes them by promising to steer clear of Scylla only to wreck them on Charybdis. The best course the farmers can pursue is to vote against Confederation, or, at any rate, to vote against a man whose whole previous course is opposed to his present statements and who declines to be pinned to any principles whatsoever by refusing to pledge himself in black and white.

Your obedient servant,
ANOTHER VOTER.

HOLLOWAY'S OINTMENT.—Turn which way you will, go where you please, persons will be found who have a ready word of praise for this Ointment. For chaps, chafes scalds, bruises and sprains, it is an invaluable remedy; for bad legs caused by accident or cold it may be confidently relied upon for effecting a sound and permanent cure. In cases of swelled glands, erysipelas, gout and rheumatism, Holloway's Ointment gives the greatest comfort by reducing the inflammation, cooling the blood, soothing the nerves, adjusting the circulation, and expelling the impurities. This Ointment should have a place in every nursery. It will cure the long list of skin affections which originate in childhood and gain strength with the child's growth. 30

Confederation.

EDITOR BRITISH COLONIST:—It is asserted by the supporters of Confederation that were this colony joined to the Dominion of Canada the Government of British Columbia would receive from Canada, out of funds other than those raised in this colony, a large sum of money—many declaring that sum to be $100,000, others $250,000, and that consequently the local government would be richer by that sum and therefore able to do more than at present. It will be well at this juncture to enquire whether such assertion be based upon fancy or fact. It is likewise asserted by them that the Canadian Government expects to lose for some time a considerable sum annually, hoping the revenue of future years will compensate them for the loss. Of course the truth or error of this assertion will only be discovered by the conduct of the Canadian Government.

According to the British North America Act (the organic Act of Canada) the Dominion Government would take from this colony 'all duties and revenues over which the Legislature of British Columbia have the power of appropriation, save and except such portions thereof as are reserved to them or are raised by them in accordance with the provisions of this Act.' It is generally admitted that under the provisions of this Act the Dominion will take from this colony the Customs dues $369,447, harbor dues $12,000, postage fees $13,000, and excise duty $5000. In the year 1869 these amounted to three hundred and ninety-nine thousand three hundred dollars—$399,300, and probably during the present year the sum will be greater. It is likewise generally admitted that the Canadian Government will impose a Stamp tax, Lighthouse dues, a tax for the support of Marine hospitals, a more extensive system of Excise, and maybe would claim the 'fees of Court.' It may then safely be assumed that if Confederation take place Canada will draw from thie colony at least $400,000, four hundred thousand dollars annually. How much of this $400,000 may Canada give back to this colony? According to the Organic Act Canada will, within certain limits only, have to pay the interest and sinking fund of the public debt of British Columbia—the debt is, say, one million and one hundred thousand dollars, $1,100,000. Canada may extend the duration of the debt fifty years—it matters nor to this enquiry how she will do it; even British Columbia may do the same thing. At 5 per cent. the interest will be $55,000; at 1½ per cent. the sinking fund will be $16,500 per annum—altogether $71,500. It must, however, be remembered that, according to the Organic Act each Province is allowed only a certain amount of public debt—Nova Scotia, for instance, is allowed $27 60; New Brunswick $23 72 per head. If the amount exceeds that sum, the Province must pay to Canada 5 per cent. interest upon the excess, but if it be less than the sum allowed, then Canada must pay to the Province 5 per cent. per annum upon a sum sufficient to bring up the debt to its stipulated amount. According to this rule, the population of British Columbia being thirty thousand, the debt allowed at $23 per head would be $690,000. The Canadian Government would therefore only have to pay interest and sinking fund upon $690,000, equal to $44,850; but British Columbia would still have to pay interest and sinking fund upon $410,000, equal to $26,650 per annum. This $26,650 would in that case be deducted from the sum given by Canada for the support of the local government of British Columbia. According to the Organic Act only the following items (not the amounts set down) will have to be paid by Canada—

Governor's salary and traveling expenses	$12,500
Judges' salary and travelling expenses	20,000
Customs Officers	15,000
Lighthouses	10,000
Postal Service	35,000
Head money at 80c. per head	24,000
For support of Local Government	50,000
Five members to Ottawa	7,500
Indians, Militia, Convicts, Marines, &c	25,000
	$200,000
If Canada pays only part of interest on debt	44,850
Canada pays British Columbia	$244 850

In relation to this subject it may be stated that the debt of

Canada is	$20 22	per head or	$1 00	interest per head	
Nova Scotia	21 69	"	1 08	"	"
New Brunswk	23 72	"	1 18	"	"
Bch Columbia	37 00	"	1 85	"	"

Each person in British Columbia pays $12 per annum to the Customs, but in the Provinces only $3 50. How much head money and subsidy is British Columbia entitled to? In relation to the sum for the support of the local Government, it may be premised that Quebec is only allowed at the rate of 6 cents, six cents per head, Nova Scotia, 10.; New Brunswick, 20. The revenue derived from Customs in British Columbia is $349,500. It would take 105,570 Canadians at $3 50 per head to supply the same amount; therefore, British Columbia is entitled to 80 cents per head upon 105,570 heads, that is $84,456, and for the support of the local Legislature at $0 20 per head, 21,114 or altogether $105,540 instead of the $71,000 set down. At the above rate of population the debt of British Columbia is $10 42 per head and interests $0 50. This Colony then is entitled to a debt of $23 per head or $2,427.000, or $1,327,000 more than we have now. At 5 per cent this interest is $66,350 to be paid to British Columbia by Canada or altogether $172,000! These two items then, both being constructive, may be increased or diminished according to fancy or reason, or the supposed liberality or stinginess of the Canadian Government, and some of the other items may be increased or diminished for like reasons. The account will stand thus:

Canada receives from B Columbia	$400,000
Canada pays on acc't on B.C.	244,850
Gain to Canada	$155,150

But let us suppose Canada to pay the whole of the interest and sinking fund of the public debt at six a a half per cent, viz. $71,500 and the account will be as follows

Canada receives from B. C.	$400,000
Canada pays on account of B. C.	271 500
Gain to Canada	128,500

It may be here observed that the Provincial Loans (debts) are taken by the Dominion Government at five per cent interest. British Columbia is entitled to the same terms whether the Dominion Government pays the public debt of British Columbia at a longer or shorter period.

Let it, however, be assumed that Canada will pay the same sum per annum as this colony now pays viz $140,000 then the account will be.

Canada receives from B. C.	$400,000
Canada pays on account of B. C.	340,000
Canada still gains	$60,000

The Government of British Columia loses $60,000 per annum! It must be remarked that the loan of 1862 expires in 1873 and then the Dominion will be relied to the extent of $36,000 and her profit will be enhanced so much more. In 1883 two having expire the amount of interest and sinking fund upon which now annually is $43,650 and in 1849 the remaining loan expire with its annual interest and sinking fund viz $40,000.

JOHN S. HELMCKEN.

[To be continued.]

The Empire's Downfall.

Sensation has been caused in Paris by at article which has appeared in the *Liberte*, by M. Emile Girardin in which, having enumerated the failures and blunders of the Empire, he proceeds to predict its fall. 'The Second Empire,' he writes, 'is toward the end; its fall is inevitable. The fall of the Empire of '52 is the revenge of the Revolution of '48. Was it possible to avoid this retaliation of the Revolution of '48, this expiation of the *coup d' etat* of '51 and fall of the Empire of '52? Yes; 1852, and again in 1860, by causing France to forgot the loss of her liberties, in giving a great impulse to her prosperity and the wise irrigation of all the abundant sources of wealth which she possesses, and finally by a great financial and fiscal reform, which then formed the solution of the peace problems in the European programme, and of the Government's task of promoting the general happiness of the people. Yes; even again in June, 1869, after the general elections (although it was very late,) by redeeming all the faults committed—by a plebiscite rendering in full to France not only all the liberities of which she had been deprived in '51, but also these which were omitted in '48 in the participation of the popular triumph. In place of a plebiscite which would have penetrated all the stratum, even the most dense of universal suffrage, what has the Imperial Government, not daring to recede nor advance resolutely, accomplished? It has given the preference to a *Senatus Consulte* which leaves the immense mass of the electors indifferent or defiant. In place of an amnesty without conditions, restrictions or exceptions, which would have been a great act, it has divested the amnesty of August 14th of all its prestige by the statement which appeared two days after in the *Journal Officiel*, a most inconsistent statement, which declared that the amnesty excepted M. Ledru-Rollin, one of the three most powerful personifications of the Provisional Government, whom the outlawed of 1815 and 1830 himself has hastened to acknowledge with enthusiasm, and to salute with transports of joy. Is it still possible this revenge of the revolution of 1848, expiation of the *coup d'etat* of '51, and fall of the empire of '52? It is this, without fear or illusion, we ask of a man accustomed to look revolution in the face without fear, but also of a man who never deceives himself, and knows that revolution, cruel mother that she is, has never given birth to liberty but to destroy it. Here is our response: If he fails to estimate correctly all the difficulties of the situation, if danger neither enlightens, inspires, nor hastens him, and if he loses the last hour which remain to him, the empire is lost!

LONDON HOUSE.—'Rich and rare' are the dry and millinery goods now being opened at this well known establishment. The goods were selected from the choicest manufactures of Great Britain and France, and came by last express. The stock is now one of the most extensive and best assorted on the coast. The firm have advices from their London partners that in order to send out the latest fashions for winter they are having made especially for them novelties in furs, mantles and millinery, very choice seal jackets, etc. These goods will arrive next steamer. Their winter stock of Alexander gloves are also being made to their order in Paris.

Auction Sales.

AUCTION.

BRITISH COLUMBIA & VANCOUVER ISLAND SPAR, LUMBER AND SAWMILL CO. (Limited).

Preliminary Notice.

To be sold by Auction, by order of the Mortgagees.

LUMLEY FRANKLIN

Is instructed by the Mortgagees to offer for sale by Public Auction

At his Salesrooms, Yates Street,

On Wednesday, Dec. 22,

AT 12 O'CLOCK, NOON,

The Sawmill at Burrard Inlet, together with a large quantity of extra Machinery, Gang Saws, Planing Machines, &c, now lying at the Mill.

The MILL SITE comprises 243 Acres of Freehold Land, and the Mill is acknowledged to be the best, and capable of turning out more lumber per day than any on this coast.

The TIMBER LANDS comprise 15,000 Acres, 12,000 of which have been selected and are now being surveyed by the Government, leaving 3000 Acres still open for selection. The whole of the Timber Privileges and Freehold Land, together with various Buildings erected thereon, will be sold with the Mill.

—ALSO—

At the same time, by order of the Mortgagees,

The Powerful and Fast Sidewheel STEAMER "ISABEL,"

146 Tons Register, 80 Horse Power (nominal), built in 1866. The strength and speed of this steamer are too well known to require any comment. She was built under special supervision, and is in every way a desirable and well-found Steamer.

The Auctioneer would beg particularly to call the attention of Capitalists to the above Property.

Conditions of Sale and Catalogues with full particulars will be shortly published and may be had on application to

LUMLEY FRANKLIN,
Auctioneer,
Yates Street, Victoria.

PARIS.

French Medicines,

Women's and Children's Diseases.

Grimault's Syrup of Iodized Horse Radish.

Patronized for more than twenty years by the Paris Physicians. Cures lymphatism, rachitism, scrofula, congestion of the glands of the neck, paleness and flabbiness of the flesh, loss of appetite, weakness of constitution, the various eruptions on the face, boils, pimples, itchings,—it is the best remedy against the first stage of consumption, and it is the most powerful depurative known.

DOCTOR LERAS'

(Doctor of Medicine.)

SOLUBLE PHOSPHATE OF IRON.

Clear as spring water and tasteless; has the advantage over all ferruginous preparations of containing Iron and Phosphorous, which are the elements of the blood. It cures chlorosis, pains in the stomach, difficult digestions, dismenorrhea, anæmia, general debility and poorness of the blood, and agrees especially with the most delicate stomachs.

LUNG DISEASES.

Grimault's Syrup of Hypophosphite of Lime.

It is the best and the most rational of all remedies against consumption. Under its influence the cough abates, the night sweats cease, and the patient rapidly recovers health. It gives the same results in cases of coughs, catarrhs, hooping coughs and influenza. In comparing this syrup with the other sold under the same name, it will be easy to recognize the superiority of this reparation.

Therefore to avoid any substitution, please to require on the bottle the signature: Grimault and Co.

NERVOUS HEADACHE

and NEURALGIA.

GUARANA.

A single powder of this natural vegetable production it sufficient to cure instantly the most violent sick headache. It is the most valuable remedy against diarrhœa,

Digestive Powders, Pills & Elexir of

PEPSINE.

Of certain effect against nausea, pituite, heart-burn, gastritis, gastralgia, children's diarrhœa, inflamation of the mucous coats of the stomach and bowels, vomiting during pregnancy, jaundice, etc.

BETTER THAN COPAIBA

GRIMAULT & Co.'S

MATICO, CAPSULES & INJECTION.

These preparations will effect a rapid and extraordinary cure of severe, recent and chronic cases of private disease.

NO MORE DIFFICULT OR PAINFUL DIGESTION!

DR BURIN DU BUISSON'S

DIGESTIVE LOZENGES.

This delicious preparation is always prescribed by the most reputed medical men in France, in cases of derangements of the digestive functions, such as gastritis, gastralgia, long and laborious digestions, wind in the stomach and bowels, emancipation, jaundice and complaints of the liver and loins.

They are considered by physicians as being superior to the celebrated Vichy Lozenger.

Largesse's Syrup & Paste

OF SEA PINE SAP.

These two preparations are invaluable and taken with the utmost success for consumption and the various diseases of the chest, and especially for coughs, colds, catarrahs, influenza, hooping cough, branchitis, asthma, and also for the different affections, of the urinary organs

FERRUGINOUS SYRUP.

OF PERUVIAN BARK.

Superior to all the compounds of Iron for all diseases of the chest, fainting, nervous affections, painful digestions and impoverished blood; it is recognized as the best and most agreeable remedy.

SPROAT & Co.,
Agents, Wharf Street

THE BRITISH COLUMBIAN Investment and Loan SOCIETY

Incorporated under an Ordinance of British Columbia.

CAPITAL, UNLIMITED,

Consisting of Permanent and Accumulating Stock, in Shares of $50 each.

F. GARESCHE, - - - - - - PRESIDENT
J. ROBERTSON STEWART - - - - VICE PRESIDENT

DIRECTORS:

E. GRANCINI, F. GARESCHE, J. LOWE, E. MARVIN, J. W. POWELL, T. PRITCHARD, T. L. STALSCHMIDT, J. R. STEWART, C. W. R. THOMSON, J. TRIMBLE,

SECRETARY and TREASURER:

DUDLEY EVANS,

SOLICITORS:

DRAKE, JACKSON & AIKMAN.

VALUATORS:

L. LOWENBERG | ROBERT BURNABY

TEMPORARY OFFICE:

At WELLS, FARGO & CO, Yates Street, Victoria.

SHAREHOLDERS.

The Shares in the Permanent Stock will be paid up in full when taken.

The Shares in the Accumulating Stock may be paid up in one year, or in two or four years, by monthly instalments (made in advance), of $1, $2, or $1, as the case may be. To ensure punctually in payment, small fines will be levied on defaulters.

On the expiration of one month after a share has been paid up in full, the holder will be entitled to receive the amount thereof with a share in the profits.

Members will, in certain cases, be allowed to withdraw the amount paid on their shares, with interest, before maturity of the Share.

A new series of shares will be issued each month.

The Profits of the Society will be derived from the Investment of the Funds of the Society.

BORROWERS.

The Loans with Interest will be required to be repaid by Instalments, and the repayments may be made at such fixed periods as may suit the convenience of Borrowers.

DEPOSITS

Will be secured by the whole of the Property and Capital of the Society and by the Ordinance under which the Society is Incorporated. The Society is precluded from taking as deposits any greater sum than ¾ of the amount of Capital actually paid in on unadvanced shares in the Capital of the Society and invested on Securities or Property.

For further information and a Prospectus, apply to the Secretary or Solicitors. oc31

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor** and **Loss of Appetite,** they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers,** they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa,** but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back** and **Loins,** they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

DR. J. C. AYER & CO., Practical Chemists, LOWELL, MASS., U. S. A.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure.

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE, $1.00 PER BOTTLE.

Howe Sound Copper Mining Company, Limited.

REPORT.

NEW WESTMINSTER, Oct 15th, 1869.

To the Directors of the Howe Sound Copper Mining Company, Limited.

GENTLEMEN:—We beg to report for your information the result of the work done by us on your reserve, at White Cliff Point, Howe Sound, and our ideas as to the prospects for the future derived from our observations of the ground, etc.

The tunnel which had been commenced before we went to work, followed a seam running North and South, pinching East into the hill at a dip of about one foot in three for the first thirty-seven feet, increasing to one foot in two afterwards. We continued to follow the seam for twenty four feet further, making in all a distance of sixty-one feet of a tunnel, six feet high and four feet wide

We did not find any copper ore in the seam, which was composed of spar and quartz, slightly impregnated with copper and mundic; but from the commencement of the tunnel to where we left off, five seams of about two inches in width each, running into the hill, joined the seam we were working on, horizontally. One of these we traced a distance of eight feet to the right by driving in that direction. All these seams contain quantities of copper ore of good quality, which would, in our opinion, assay from twenty-five to thirty per cent. During the last ten or twelve feet of blasting in the tunnel we found considerable and increasing quantities of mundic, which is a highly favorable indication. From the appearance of the seam upon which we were working and from the indications mentioned, we were led to believe that the main lode lay further back in the hill, and we consequently instituted a series of explorations, the result of which was the discovery of a quartz seam about fifty feet back, which, running in a similar direction, pitches down at a dip of nearly four feet in six feet. The average width is about seven to eight inches and it has all the appearance of being a main lode. We traced it along the surface for a distance of one hundred and fifty feet. Our opinion is that the seam upon which we have been tunneling, and all the smaller ones met during the work run from this seam now discovered, and that by driving or sinking on it you would discover a good Copper lode of rich ore. We would, in conclusion, recommend you, instead of continuing to sink on the present seam, to run a level from it into the seam or lode now discovered which we think would be reached in about thirty feet from the end of the present tunnel.

We are, Gentlemen, Your Obd't Serv'ts,
WM. MAY
THOMAS PERRY.

Rheumatism, Dysentery, and Fever.

THE "TIMES," OF INDIA, STATES "that the discovery of Dr. J. COLLIS BROWNE'S CHLORODYNE is a greater blessing to the human race than even the discovery of Vaccination." This remedy is invaluable in the above diseases, and is indispensable to Emigrants, Travellers, and Families, a few doses being generally sufficient.

DR. J. COLLIS BROWNE'S CHLORODYNE.—The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See "Lancet," December 31, 1864.

DR. J. COLLIS BROWNE'S CHLORODYNE.—Extract from "Medical Times," January 12, 1866.—"Is prescribed by scores of orthodox medical practitioners. Of course it would not be thus singularly popular did it not supply a want and fill a place."

DR. J. COLLIS BROWNE'S CHLORODYNE is the best and most certain remedy in Coughs, Colds, Asthma, Consumption, Neuralgia, Rheumatism, &c.

DR. J. COLLIS BROWNE'S CHLORODYNE—Extract from the General Board of Health, London, as to its efficacy in cholera. "So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."

It is necessary to warn the public against spurious imitations, which only bear the pirated name, and are deficient of the true properties of the only genuine, viz.: DR. J. COLLIS BROWNE'S, as was proved before Vice-Chancellor Sir W. P. Wood, in the Court of Chancery, in case Browne vs. Freeman, when the Vice-Chancellor stated that the story of Freeman being the Inventor was DELIBERATELY UNTRUE.
